I used it, it works, but now im typing in my main path. I checked my path and for my main python script, there is one kind of error that always shows up in cmd. In my main path "C:\Users\Coby\Documents\Python\PYTHON LEARNING\SCORE\_GAME.py". Right in the beginning is "C:\Users\Coby" but I can't type in it, and I tried to fix that problem for a week. Here's some code. Im using py2exe, but since I dont have enough reputation, im not allowed to post more code. file = open('data.txt', 'a') It prints like this: print('....
